Art Unit: 3751

Claims 1-18 are allowed.

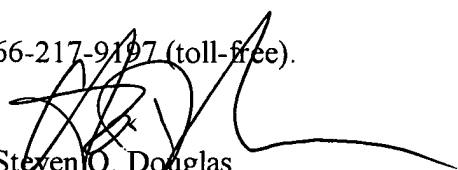

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Campau, Huisma and Mylander references pertain to level maintaining devices with associated pilot operated valves, and the Beggs reference pertains to a pilot operated plant watering system. However, none of the prior art, alone or in combination, teach Applicant's invention of a liquid level maintaining device including both a restrictor and a pilot controlled sequence valve as claimed.
